 - Form [G-1145](#), E-Notification of Application/Petition Acceptance

I completed my DACA Folder on: ___ / ___ / ____

I submitted and mailed my DACA renewal application on: ___ / ___ / ____

Previous Addresses Worksheet

Just like your first DACA application, there is a section (Part 2. Residence and Travel Information, Questions 2a-5e) that asks for a list of your previous addresses and dates. As a renewal applicant, you only need to list of all address you have had and dates you moved since you submitted a DACA application 2 years ago.

Before you start your DACA application forms, use the worksheet below to get down all the info you will need and get it organized.

Have you moved since you last applied for DACA? Check off one:

- I have had the same address since I submitted my application 2 years ago.*
 - You just need to write in your current address and the date you moved.
- I have moved one or multiples times since I last submitted a DACA application.*
 - Use the space below to start listing out all your address and dates. Remember: You do not need to list out all your addresses again, just those you've had since you last applied. You can use the back of this sheet to list out more if needed.

My Current Address: **Dates: From:** __ / __ / __ **to** __ / __ / __

Street Address: _____

City: _____ State: _____ Zip Code: _____

Previous Address #1: **Dates: From:** __ / __ / __ **to** __ / __ / __

Street Address: _____

City: _____ State: _____ Zip Code: _____

Previous Address #2: **Dates: From:** __ / __ / __ **to** __ / __ / __

Street Address: _____

City: _____ State: _____ Zip Code: _____

Previous Address #3: **Dates: From:** __ / __ / __ **to** __ / __ / __

Street Address: _____

City: _____ State: _____ Zip Code: _____

Previous Address #4: **Dates: From:** __ / __ / __ **to** __ / __ / __

Street Address: _____

City: _____ State: _____ Zip Code: _____

United We Dream

Estimates of Financial Information Worksheet:

On form I-765WS, which you also submitted the first time you applied, you are required to estimate some of your financial information such as income, expenses, and assets. USICS uses this information to determine whether you have an economic need to work. Although you don't need to submit any supporting information, you should do your best to estimate the amounts.

This section can be a bit tricky for applicants to figure out. So United We Dream has created this handy worksheet to help YOU estimate your income and spending, use the worksheet to help you brainstorm and estimate.

- For **current annual income**, estimate how much you have made the past year. Tips:
 - If you have a regular, full time job, use the information from your pay stub.
 - If you do not have a steady job or don't have a regular paycheck, do your best to estimate how much you have made the past year.
 - If you don't have a job or are still in high school put \$0.
 - Do not count money your parents or your spouse earns.
 - Weekly income: \$_____ x 56 weeks = **Annual Income** \$_____

- For **current annual expenses**, add up an estimate of your big expenses that you or family spends on you. To answer this question, you should think about how much you spend in a month on rent, food, gas, utilities, your phone bill, books, and so on. Multiply the total by 12 and you have your answer. Below are some common categories:
 - Rent: \$_____ a month x 12 = \$_____
 - Car payment: \$_____ a month x 12 = \$_____
 - Insurance: \$_____ a month x 12 = \$_____
 - Utilities: \$_____ a month x 12 = \$_____
 - Groceries: \$_____ a month x 12 = \$_____
 - Gas: \$_____ a month x 12 = \$_____
 - College Tuition: \$_____
 - Medical expenses: \$_____ a month x 12 = \$_____
 - Other: \$_____ a month x 12 = \$_____
 - Estimate Total: \$_____**

- For **current value of economic assets**, think about the big, valuable things you own. Next, estimate the value of each of those things. Below are some common categories
 - Car: \$_____
 - Property: \$_____
 - Expensive jewelry: \$_____
 - Boats, motorcycles/etc: \$_____
 - Other: \$_____
 - Estimate Total: \$_____**
